

CXD 222

High Solids, High Yield, Firm Fruit, Full Season
Multi-use

Description

CDX 222 is a jointless, high solids, full season variety with very firm fruit and great yield potential. The medium size plant provides excellent cover for the very uniform, elongated square fruit ideally suited for paste and dicing. Fruit also has good size making it ideal for potential fresh market use as a dual purpose variety. Good color and viscosity complement this ideal variety for full season multiple use.

Plant Characteristics:

Season / Maturity	Full / 130 Days
Plant Type	Med/Lrg
Disease Resistance	VFFNP
EFS	-

Fruit Characteristics:

Shape	Elongated Square
Shoulder	Uniform
Joint	J-
Grams	90
BRIX	High
Viscosity	High
Color	High
Use	M
